

Three-Ring Word Game

Here are three rings with letters in each ring:

Can you spell words using the letters in the rings? You must follow a few rules. The words should have three letters, and the first letters should come from the first ring, the second from the second ring, and the third from the third ring. Proper names, like Pat or Sam, are permitted, but nonsense words are not.

Here's one word:

vet

Now out of the three circles, how many words can you find? (Hint: There are TWENTY-NINE words.) Dig In!
